Hi Doug – In regard to the concerns raised by Joan Seaman today, EPA along with the state, has indicated since the summer CAG meetings that we were moving forward with partially deleting OU1 at the VB/I-70 site. In addition, Steve Wharton discussed this issue at the most recent CAG meeting in November. EPA and the state will be meeting again with this CAG on Thursday December 18.

Joan has not been in attendance at the CAG meetings, which have been our mechanism for informing the community about deleting this OU. Joan has also previously expressed her concern about the cleanup at OU1.

Jennifer Chergo contacted Joan this afternoon, but she expects Joan to continue making calls to regional managers. I recommend that Jennifer continue to be the point of contact and stress to Joan that we will be discussing this deletion at the December CAG meeting and the public will have an opportunity to comment on the notice of intent to partially delete this OU.

Betsy

RE: Vasquez SF site delisting – CAG up in arms, no one requested their input or had a community meeting to inform.

Group is NOT happy, determined to send a letter to RA.

They have, or saw, a copy of the letter from CDPHE to EPA dated Oct. 12 that indicates they agreed to the delisting, but why no communication with the community?
